Contents

VOLUME 18 NUMBER 1

MicroReview

1 **Regulation of insecticidal crystal protein production in *Bacillus thuringiensis***
J. A. Baum & T. Malvar

Research Articles

13 **Genetic organization, nucleotide sequence and regulation of expression of genes encoding phenol hydroxylase and catechol 1,2-dioxygenase in *Acinetobacter calcoaceticus* NCIB8250**
S. Ehrt, F. Schirmer & W. Hillen

21 **Identification of the minimal replicon of plasmid pMEA300 of the methylotrophic actinomycete *Amycolatopsis methanolica***
J. W. Vrijbloed, M. Jelínková, G. I. Hessels & L. Dijkhuizen

33 **Differential expression of two siderophore-dependent iron-acquisition pathways in *Erwinia chrysanthemi* 3937: characterization of a novel ferrisiderophore permease of the ABC transporter family**
B. Mahé, C. Masclaux, L. Rauscher, C. Enard & D. Expert

45 **Insertion of inverted *Ter* sites into the terminus region of the *Escherichia coli* chromosome delays completion of DNA replication and disrupts the cell cycle**
B. Sharma & T. M. Hill

63 **Expression of flagella and motility by *Shigella***
J. A. Girón

77 ***NPI1*, an essential yeast gene involved in induced degradation of Gap1 and Fur4 permeases, encodes the Rsp5 ubiquitin–protein ligase**
C. Hein, J.-Y. Springael, C. Volland, R. Haguenauer-Tsapis & B. André

89 **Tissue-specific glycogen branching isoenzymes in a multicellular prokaryote, *Streptomyces coelicolor* A3(2)**
C. J. Bruton, K. A. Plaskitt & K. F. Chater

101 **Coupling of *Escherichia coli hns* mRNA levels to DNA synthesis by autoregulation: implications for growth phase control**
A. Free & C. J. Dorman

115 **Identification of a methyl-accepting chemotaxis protein in *Rhodobacter sphaeroides***
M. J. Ward, D. M. Harrison, M. J. Ebner & J. P. Armitage

123 **Cation-selectivity of the L-glutamate transporters of *Escherichia coli*, *Bacillus stearothermophilus* and *Bacillus caldotenax*: dependence on the environment in which the proteins are expressed**
B. Tolner, T. Ubbink-Kok, B. Poolman & W. N. Konings

135 **Cell-surface-bound *Yersinia* translocate the protein tyrosine phosphatase YopH by a polarized mechanism into the target cell**
C. Persson, R. Nordfelth, A. Holmström, S. Håkansson, R. Rosqvist & H. Wolf-Watz

151 **The regulator of streptomycin gene expression, StrR, of *Streptomyces griseus* is a DNA binding activator protein with multiple recognition sites**
L. Retzlaff & J. Distler

163 **Transcriptional regulation of ferric citrate transport in *Escherichia coli* K-12. FecI belongs to a new subfamily of σ^{70}-type factors that respond to extracytoplasmic stimuli**
A. Angerer, S. Enz, M. Ochs & V. Braun

175 **Regulatory characteristics and promoter analysis of *csiE*, a stationary phase-inducible gene under the control of σ^{S} and the cAMP–CRP complex in *Escherichia coli***
C. Marschall & R. Hengge-Aronis

VOLUME 18 NUMBER 2

MicroReviews

185 **Molecular handles on adaptive mutation**
S. M. Rosenberg, R. S. Harris & J. Torkelson

191 **Transcription antitermination: the λ paradigm updated**
D. I. Friedman & D. L. Court

201 **A role for bacteriophages in the evolution and transfer of bacterial virulence determinants**
B. F. Cheetham & M. E. Katz

Research Articles

209 **Lipopolysaccharide with an altered O-antigen produced in *Escherichia coli* K-12 harbouring mutated, cloned *Shigella flexneri rfb* genes**
R. Morona, D. F. Macpherson, L. Van Den Bosch, N. I. A. Carlin & P. A. Manning

225 **Induction of complex intracytoplasmic membranes related to nitrogen fixation in *Azoarcus* sp. BH72**
T. Hurek, M. Van Montagu, E. Kellenberger & B. Reinhold-Hurek

237 **TolC and DsbA are needed for the secretion of ST_B, a heat-stable enterotoxin of *Escherichia coli***
D. T. Foreman, Y. Martinez, G. Coombs, A. Torres & Y. M. Kupersztoch

247 **Regulation of the heat-shock response depends on divalent metal ions in an *hflB* mutant of *Escherichia coli***
C. Herman, S. Lecat, R. D'Ari & P. Bouloc

257 **Evidence for lateral transfer and recombination in OspC variation in Lyme disease *Borrelia***
I. Livey, C. P. Gibbs, R. Schuster & F. Dorner

271 **pAMβ1 resolvase has an atypical recombination site and requires a histone-like protein HU**
M.-A. Petit, D. Ehrlich & L. Jannière

283 **Identification of mycoplasma membrane proteins by systematic Tn*phoA* mutagenesis of a recombinant library**
C. M. Cleavinger, M. F. Kim, J. H. Im & K. S. Wise

295 ***Bacillus subtilis* MrgA is a Dps(PexB) homologue: evidence for metalloregulation of an oxidative-stress gene**
L. Chen & J. D. Helmann

301 ***sbmC*, a stationary-phase induced SOS *Escherichia coli* gene, whose product protects cells from the DNA replication inhibitor microcin B17**
M. R. Baquero, M. Bouzon, J. Varea & F. Moreno

313 **Characterization of an *Escherichia coli rotA* mutant, affected in periplasmic peptidyl-prolyl *cis/trans* isomerase**
M. Kleerebezem, M. Heutink & J. Tommassen

321 **Deletion analysis of gene *minE* which encodes the topological specificity factor of cell division in *Escherichia coli***
S. Pichoff, B. Vollrath, C. Touriol & J.-P. Bouché

331 **Fnr activates transcription from the *P6* promoter of the *pfl* operon *in vitro***
M. Kaiser & G. Sawers

343 **Mutational analysis of the *Yersinia enterocolitica virC* operon: characterization of *yscE, F, G, I, J, K* required for Yop secretion and *yscH* encoding YopR**
A. Allaoui, R. Schulte & G. R. Cornelis

357 **Distinct and differently regulated Mo-dependent nitrogen-fixing systems evolved for heterocysts and vegetative cells of *Anabaena variabilis* ATCC 29413: characterization of the *fdxH1/2* gene regions as part of the *nif1/2* gene clusters**
B. Schrautemeier, U. Neveling & S. Schmitz

MicroOpinion

371 **Why sequence genomes? The *Escherichia coli* imbroglio**
A. Danchin

MicroCorrespondence

377 **The *Pasteurella multocida txaR* gene is expressed in *Escherichia coli* but does not repress transcription of the *P. multocida* toxin gene *toxA***
I. C. Hoskins & A. J. Lax

378 **Common structural features of IgA1 protease-like outer membrane protein autotransporters**
J. Jose, F. Jähnig & T. F. Meyer

380 **Qid3 protein links plant bimodular proteins with fungal hydrophobins**
J. M. Lora, J. A. Pintor-Toro, T. Benítez & L. C. Romero

VOLUME 18 NUMBER 3

MicroReview

383 **Quelling the red menace: haem capture by bacteria**
B. C. Lee

Research Articles

391 **Molecular cloning, sequence analysis, and functional characterization of the lipopolysaccharide biosynthetic gene *kdtA* encoding 3-deoxy-α-D-*manno*-octulosonic acid transferase of *Chlamydia pneumoniae* strain TW-183**
S. Löbau, U. Mamat, W. Brabetz & H. Brade

401 **Membrane glycerophospholipid biosynthesis in *Neisseria meningitidis* and *Neisseria gonorrhoeae*: identification, characterization, and mutagenesis of a lysophosphatidic acid acyltransferase**
J. S. Swartley, J. T. Balthazar, J. Coleman, W. M. Shafer & D. S. Stephens

413 **The unrelated surface proteins ActA of *Listeria monocytogenes* and IcsA of *Shigella flexneri* are sufficient to confer actin-based motility on *Listeria innocua* and *Escherichia coli* respectively**
C. Kocks, J.-B. Marchand, E. Gouin, H. d'Hauteville, P. J. Sansonetti, M.-F. Carlier & P. Cossart

425 **The amino-terminal part of ActA is critical for the actin-based motility of *Listeria monocytogenes*; the central proline-rich region acts as a stimulator**
I. Lasa, V. David, E. Gouin, J.-B. Marchand & P. Cossart

437 **Deletion mutagenesis of Tn*10* Tet repressor—localization of regions important for dimerization and inducibility *in vivo***
C. Berens, K. Pfleiderer, V. Helbl & W. Hillen

449 **The Flp recombinase cleaves Holliday junctions *in trans***
J. E. Dixon, A. C. Shaikh & P. D. Sadowski

459 **Visualization of the subcellular location of sporulation proteins in *Bacillus subtilis* using immunofluorescence microscopy**
K. Pogliano, E. Harry & R. Losick

471 **The role of the chromatin-associated protein Hbsu in β-mediated DNA recombination is to facilitate the joining of distant recombination sites**
J. C. Alonso, C. Gutierrez & F. Rojo

479 **_Salmonella typhimurium_ secreted invasion determinants are homologous to _Shigella_ Ipa proteins**
C. J. Hueck, M. J. Hantman, V. Bajaj, C. Johnston, C. A. Lee & S. I. Miller

491 **Mutational activation of the Cpx signal transduction pathway of _Escherichia coli_ suppresses the toxicity conferred by certain envelope-associated stresses**
C. L. Cosma, P. N. Danese, J. H. Carlson, T. J. Silhavy & W. B. Snyder

507 **Evidence for _in vivo_ but not _in vitro_ expression of a _Borrelia burgdorferi_ outer surface protein F (OspF) homologue**
D. R. Akins, S. F. Porcella, T. G. Popova, D. Shevchenko, S. I. Baker, M. Li, M. V. Norgard & J. D. Radolf

521 **Transcriptional co-activation at the _ansB_ promoters: involvement of the activating regions of CRP and FNR when bound in tandem**
S. Scott, S. Busby & I. Beacham

533 **Regulation of anaerobic citrate metabolism in _Klebsiella pneumoniae_**
M. Bott, M. Meyer & P. Dimroth

547 **Genetic and functional evidence that Type IV pili are required for social gliding motility in _Myxococcus xanthus_**
S. S. Wu & D. Kaiser

559 **Uptake of inorganic carbon in the cyanobacterium _Synechocystis_ PCC6803: physiological and genetic evidence for a high-affinity uptake system**
S. Bédu, P. Pozuelos, B. Cami & F. Joset

569 **Identification of a plasminogen-binding motif in PAM, a bacterial surface protein**
A. Carlsson Wistedt, U. Ringdahl, W. Müller-Esterl & U. Sjöbring

579 ***nasST*, two genes involved in the induction of the assimilatory nitrite–nitrate reductase operon (*nasAB*) of _Azotobacter vinelandii_**
J.-C. Gutierrez, F. Ramos, L. Ortner & M. Tortolero

VOLUME 18 NUMBER 4

Research Articles

593 **Photonic detection of bacterial pathogens in living hosts**
C. H. Contag, P. R. Contag, J. I. Mullins, S. D. Spilman, D. K. Stevenson & D. A. Benaron

605 **Organization of the _Saccharomyces cerevisiae_ actin gene UAS: functional significance of reiterated REB1 binding sites and AT-rich elements**
M. McLean, A. V. Hubberstey, D. J. Bouman, N. Pece, P. Mastrangelo & A. G. Wildeman

615 **Benefit of transcription-coupled nucleotide excision repair for gene expression in u.v.-damaged _Escherichia coli_**
B.-H. Li & R. Bockrath

623 **The effect of receptor rapid-internalization signals on diphtheria toxin endocytosis and cell sensitivity**
B. D. Almond & L. Eidels

631 **A bacteriocin-like peptide induces bacteriocin synthesis in _Lactobacillus plantarum_ C11**
D. B. Diep, L. S. Håvarstein & I. F. Nes

641 **Expression of the _gltP_ gene of _Escherichia coli_ in a glutamate transport-deficient mutant of _Rhodobacter sphaeroides_ restores chemotaxis to glutamate**
M. H. J. Jacobs, T. van der Heide, B. Tolner, A. J. M. Driessen & W. N. Konings

649 ***Mycoplasma hyorhinis vlp* gene transcription: critical role in phase variation and expression of surface lipoproteins**
C. Citti & K. S. Wise

661 **Expression of two *csg* operons is required for production of fibronectin- and Congo red-binding curli polymers in _Escherichia coli_ K-12**
M. Hammar, A. Arnqvist, Z. Bian, A. Olsén & S. Normark

671 **Use of recombinase gene fusions to identify _Vibrio cholerae_ genes induced during infection**
A. Camilli & J. J. Mekalanos

685 **Characterization of _Vibrio cholerae_ bacteriophage K139 and use of a novel mini-transposon to identify a phage-encoded virulence factor**
J. Reidl & J. J. Mekalanos

703 **Mechanism of antigenic variation in _Mycoplasma pulmonis_: interwoven, site-specific DNA inversions**
B. Bhugra, L. L. Voelker, N. Zhou, H. Yu & K. Dybvig

715 ***hilA* is a novel *ompR/toxR* family member that activates the expression of _Salmonella typhimurium_ invasion genes**
V. Bajaj, C. Hwang & C. A. Lee

729 **Molecular analysis of a locus for the biosynthesis and phase-variable expression of the lacto-*N*-neotetraose terminal lipopolysaccharide structure in _Neisseria meningitidis_**
M. P. Jennings, D. W. Hood, I. R. A. Peak, M. Virji & E. R. Moxon

741 **Opc- and pilus-dependent interactions of meningococci with human endothelial cells: molecular mechanisms and modulation by surface polysaccharides**
M. Virji, K. Makepeace, I. R. A. Peak, D. J. P. Ferguson, M. P. Jennings & E. R. Moxon

755 **Inactivation of *mecA* prevents recovery from the competent state and interferes with cell division and the partitioning of nucleoids in _Bacillus subtilis_**
J. Hahn, J. Bylund, M. Haines, M. Higgins & D. Dubnau

769 **The type IV pre-pilin leader peptidase of *Xanthomonas campestris* pv. *campestris* is functional without conserved cysteine residues**
N.-T. Hu, P.-F. Lee & C. Chen

779 **Functional and regulatory analysis of the OmpF-like porin, OpnP, of the symbiotic bacterium *Xenorhabdus nematophilus***
S. Forst, J. Waukau, G. Leisman, M. Exner & R. Hancock

VOLUME 18 NUMBER 5

MicroReview

791 **Immunological and functional characterization of *Mycobacterium leprae* protein antigens: an overview**
J. E. R. Thole, B. Wieles, J. E. Clark-Curtiss, T. H. M. Ottenhoff & T. F. Rinke de Wit

Research Articles

801 **Modulation of DNA topology by *flaR*, a new gene from *Listeria monocytogenes***
M. Sanchez-Campillo, S. Dramsi, J. M. Gómez-Gómez, E. Michel, P. Dehoux, P. Cossart, F. Baquero & J. C. Pérez-Díaz

813 **Characterization of *Escherichia coli* DnaAcos protein in replication systems reconstituted with highly purified proteins**
T. Katayama, E. Crooke & K. Sekimizu

821 **Cloning and characterization of the genes encoding the haemolysin of *Haemophilus ducreyi***
K. L. Palmer & R. S. Munson, Jr

831 **A Tn*phoA* insertion within the *Bradyrhizobium japonicum sipS* gene, homologous to prokaryotic signal peptidases, results in extensive changes in the expression of PBM-specific nodulins of infected soybean (*Glycine max*) cells**
P. Müller, K. Ahrens, T. Keller & A. Klaucke

841 **Mode of promoter recognition by the *Escherichia coli* RNA polymerase holoenzyme containing the σ^S subunit: identification of the recognition sequence of the *fic* promoter**
K. Hiratsu, H. Shinagawa & K. Makino

851 **Role of σ^S in transcription from the positively controlled Pm promoter of the TOL plasmid of *Pseudomonas putida***
S. Marqués, M. T. Gallegos & J. L. Ramos

859 ***yst* gene expression in *Yersinia enterocolitica* is positively regulated by a chromosomal region that is highly homologous to *Escherichia coli* host factor 1 gene (*hfq*)**
H. Nakao, H. Watanabe, S. Nakayama & T. Takeda

867 ***Helicobacter pylori picB*, a homologue of the *Bordetella pertussis* secretion protein, is required for induction of IL-8 in gastric epithelial cells**
M. K. R. Tummuru, S. A. Sharma & M. J. Blaser

877 **The elastase propeptide functions as an intramolecular chaperone required for elastase activity and secretion in *Pseudomonas aeruginosa***
K. S. McIver, E. Kessler, J. C. Olson & D. E. Ohman

891 **Identification of *Salmonella typhi* promoters activated by invasion of eukaryotic cells**
L. H. Staendner, M. Rohde, K. N. Timmis & C. A. Guzmán

903 **Control of P1 plasmid replication by iterons**
A. L. Abeles, L. D. Reaves, B. Youngren-Grimes & S. J. Austin

913 **Replication control of plasmid pLS1: efficient regulation of plasmid copy number is exerted by the combined action of two plasmid components, CopG and RNA II**
G. del Solar, P. Acebo & M. Espinosa

925 **Ion permeability of the cytoplasmic membrane limits the maximum growth temperature of bacteria and archaea**
J. L. C. M. van de Vossenberg, T. Ubbink-Kok, M. G. L. Elferink, A. J. M. Driessen & W. N. Konings

933 **Inducible transposition in *Streptomyces lividans* of insertion sequence IS*6100* from *Mycobacterium fortuitum***
B. Smith & P. Dyson

943 **A missense mutation in *rpoD* results in an A-signalling defect in *Myxococcus xanthus***
J. M. Davis, J. Mayor & L. Plamann

953 **Phosphotransfer circuitry of the putative multi-signal transducer, ArcB, of *Escherichia coli*: *in vitro* studies with mutants**
M. Tsuzuki, K. Ishige & T. Mizuno

963 **Osmoregulation of fission yeast: cloning of two distinct genes encoding glycerol-3-phosphate dehydrogenase, one of which is responsible for osmotolerance for growth**
R. Ohmiya, H. Yamada, K. Nakashima, H. Aiba & T. Mizuno

975 **The product of the *pilQ* gene is essential for the biogenesis of type IV pili in *Neisseria gonorrhoeae***
S. L. Drake & M. Koomey

MicroCorrespondence

987 **BEE95: a novel sequence family related to IRU/ERIC dispersed enterobacterial intergenic elements**
J.-P. Bouché

991 **Similarities between the lethal factor of *Bacillus anthracis* and leukotriene A_4 hydrolase**
A. Ménard, M. Mock & C. Montecucco

Indexes

993 **Keyword Index**
997 **Author Index**
